AIM:

The aim is to create interactive data visualizations, such as bar charts and doughnut charts, for a Monthly sales analysis system using JavaScript.

PROCEDURE:

Step 1:

Set up the HTML file to create the basic structure of the webpage. Include a canvas element to display the charts.

Step 2:

Add required libraries (like Chart.js) using CDN in the HTML file.

Step 3:

Create a JavaScript file (script.js) to store the the electrical gagets like mobiles,laptop.

Step 4:

Use JavaScript to generate a **bar chart** showing monthly sales progression.

Step 5:

Create a **doughnut chart** to represent month-wise gagets distribution.

Step 6:

Link the JavaScript file to the HTML file and run the program in a browser.

Code:

```
index.html X
index.html
1  <!DOCTYPE html>
2  <html>
3  <head>
4    <title>Sales Dashboard</title>
5    <script src="https://cdn.jsdelivr.net/npm/chart.js"></script>
6    <style>
7      body {
8        font-family: Arial;
9        text-align: center;
10       background-color: #f4f4f4;
11     }
12
13     .container {
14       width: 80%;
15       margin: auto;
16     }
17
18     canvas {
19       margin: 30px;
20       background: white;
21       padding: 15px;
22       border-radius: 10px;
23       box-shadow: 0px 0px 10px gray;
24     }
25   </style>
26 </head>
27
```

```
index.html
index.html > html
2  <html>
3
4
28  <body>
29
30  <h2>Sales Analysis Dashboard</h2>
31
32  <div class="container">
33    <canvas id="barChart"></canvas>
34    <canvas id="pieChart"></canvas>
35  </div>
36
37  <script>
38    // Data
39    const months = ["Jan", "Feb", "Mar", "Apr", "May"];
40    const sales = [12000, 19000, 15000, 22000, 18000];
41
42    const products = ["Laptop", "Mobile", "Tablet", "Accessories"];
43    const productSales = [40, 30, 20, 10];
44
45    // Bar Chart
46    new Chart(document.getElementById("barChart"), {
47      type: "bar",
48      data: {
49        labels: months,
50        datasets: [{
51          label: "Monthly Sales",
52          data: sales,
```

```
54      }
55    },
56    options: {
57      responsive: true
58    }
59  });
60
61  // Pie Chart
62  new Chart(document.getElementById("pieChart"), {
63    type: "pie",
64    data: {
65      labels: products,
66      datasets: [{
67        data: productSales,
68        backgroundColor: ["gold", "cyan", "pink", "lightgreen"]
69      }]
70    },
71    options: {
72      responsive: true
73    }
74  });
75  </script>
```

```

63     type: "pie",
64     data: {
65       labels: products,
66       datasets: [{
67         data: productSales,
68         backgroundColor: ["gold", "cyan", "pink", "lightgreen"]
69       }]
70     },
71     options: {
72       responsive: true
73     }
74   });
75 </script>
76
77 </body>
78 </html>

```
