USER INTERFACE DESIGN
EXPERIMENT-7

NAME: MIRUTHULAA

ROLL NO: 240701310

Designed UI Layouts

Three different UI layouts were created using Figma with variations in colour schemes and visual styles.

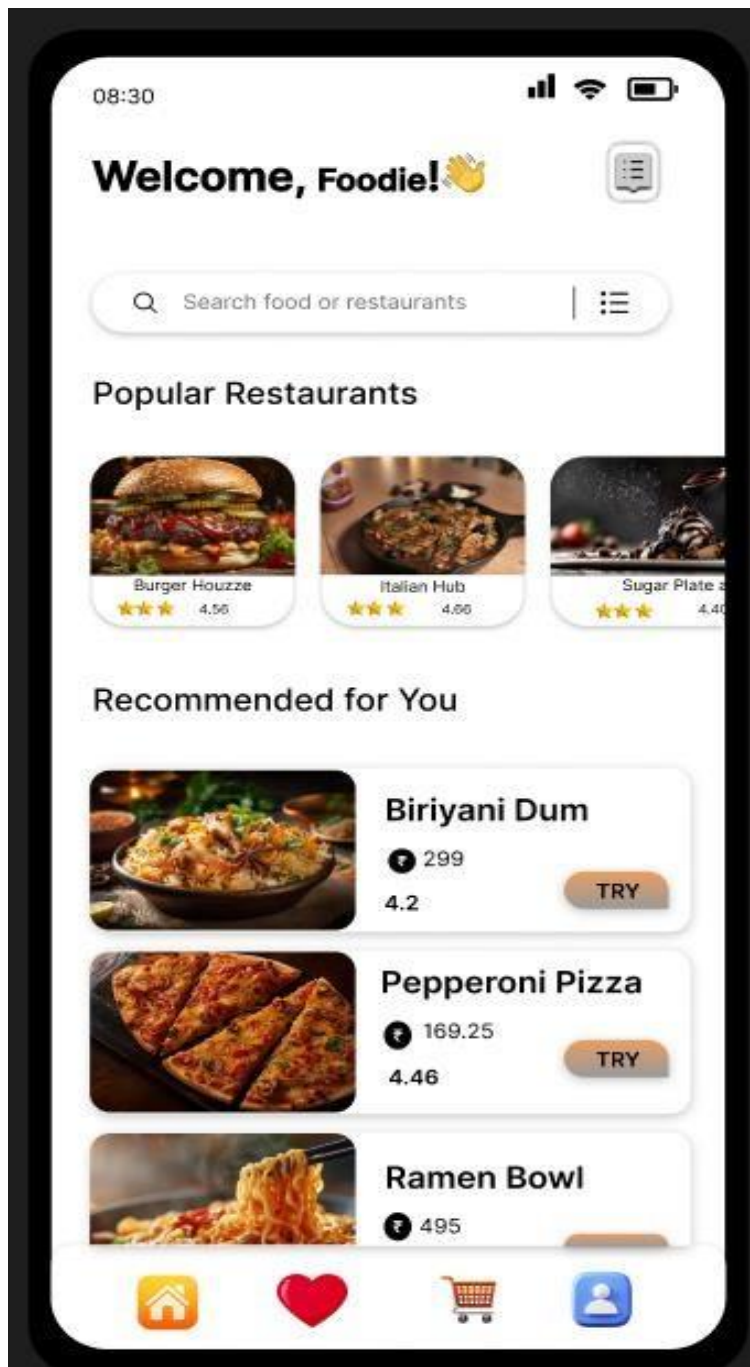

Design 1: Light Theme

Description:

- White background with minimal design
- Simple layout with clean typography
- Light-coloured buttons and icons

Observation:

- Easy to read and understand
- Looks simple but less visually attractive
- Suitable for basic user experience

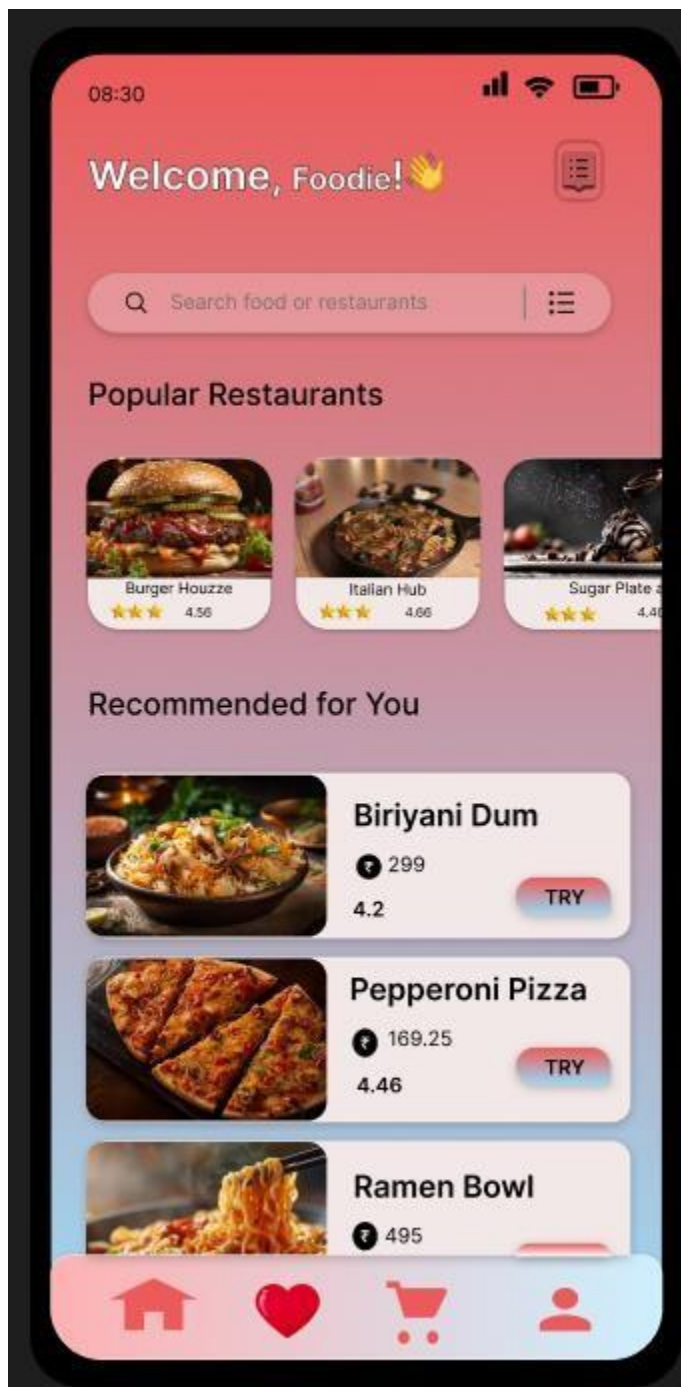

Design 2: Clean/White Theme

Description:

- Balanced layout with proper spacing
- Improved card structure and alignment
- **Soft colour usage**

Observation:

- Better layout structure compared to first design
- Good readability and spacing
- Moderate visual appeal

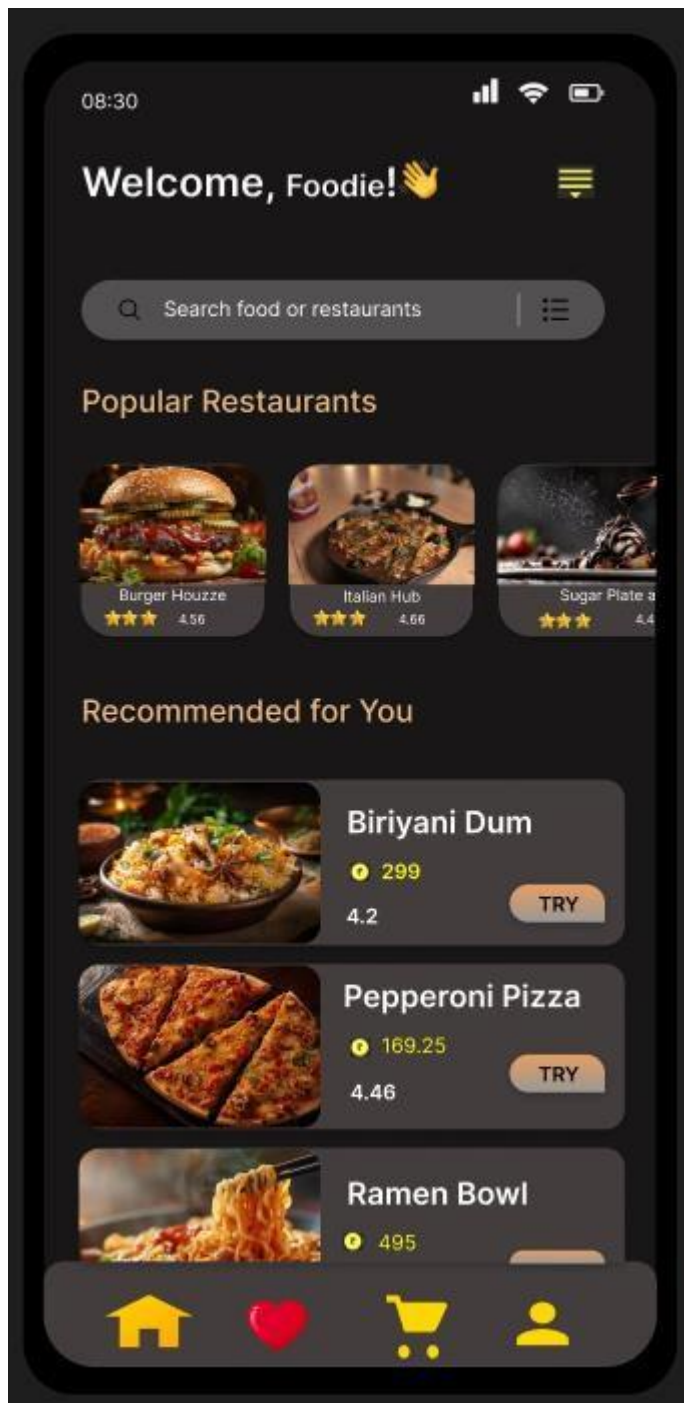

Design 3: Dark Theme

Description:

- Dark background with gold accents
- High contrast text and buttons
- Modern and premium look

Observation:

- Most visually attractive design
- Good contrast improves visibility
- Gives premium and modern feel

User Feedback Summary

Feedback was collected using Google Forms from multiple users.

Observations from Feedback:

- Majority of users preferred the **Dark Theme**
- Light theme was considered plain, simple and usual.
- Some users suggested improve the colour theme for better visibility.
- User liked consistent layout across all designs.

Final Observation

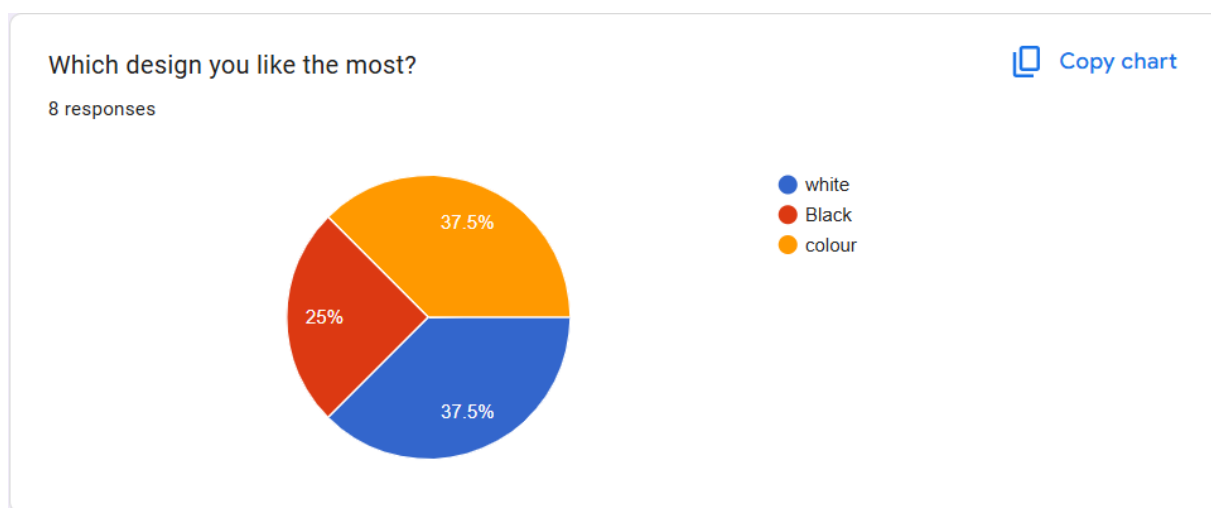

From the experiment, it is observed that:

- Color schemes significantly affect user preference.
- Dark themes provide better visual appeal.
- Proper spacing and alignment improve usability.
- User feedback helps in refining and enhancing the UI design.

Form response:
