MIRUTHULAA M

Food Delivery Website
(Bad UI vs Good UI Comparison)

PROTOTYPE LINK:

<https://www.figma.com/design/M24Tc0xNOibdWwuMZVJUJ/Untitled?node-id=0-1&p=f&t=azbWei5ZhXhnTKaB-0>

➤ BAD UI DESIGN (FOOD DELIVERY WEBSITE)

What the design looks like:

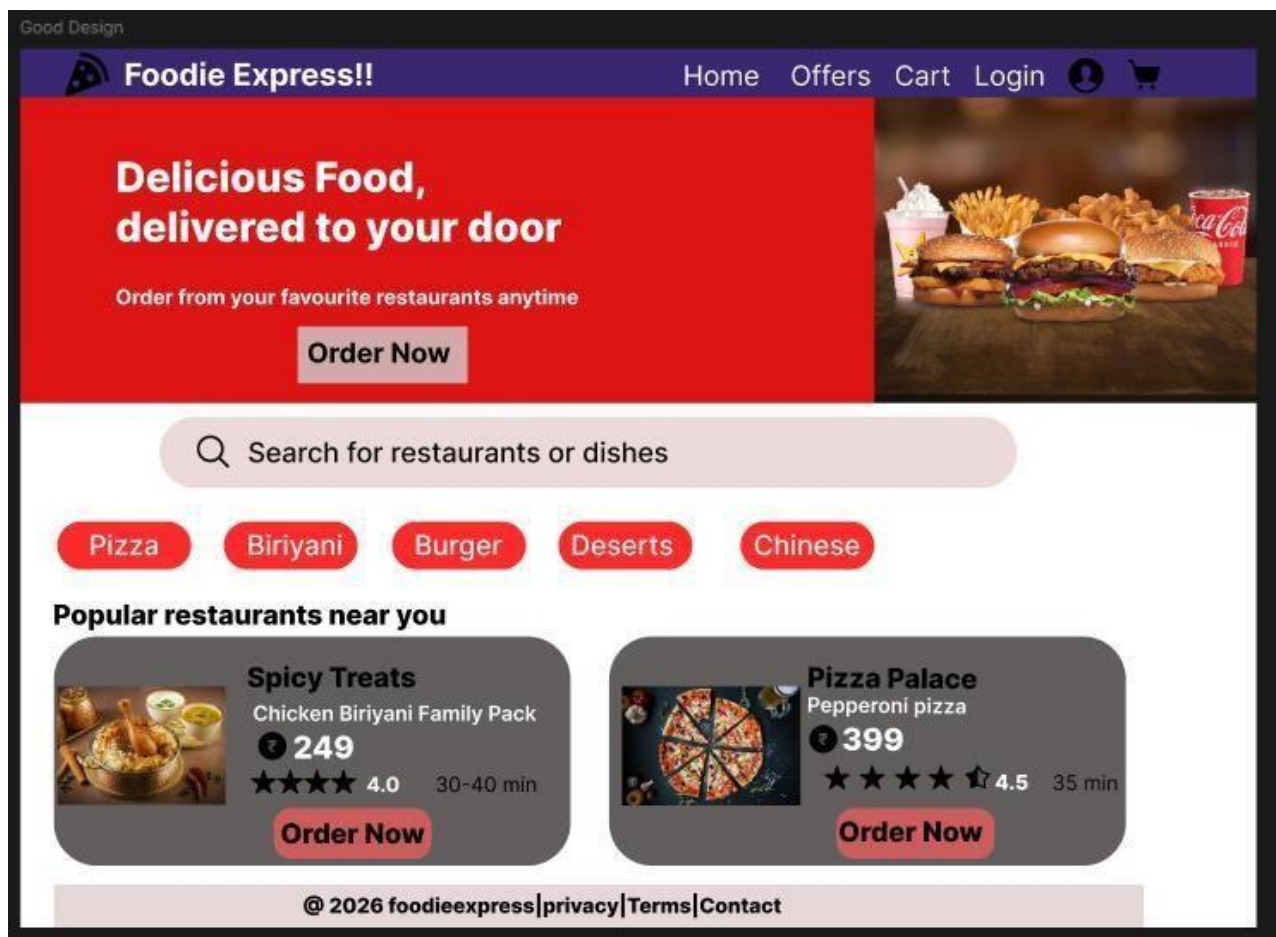

- Crowded top menu with too many items
- Long search text
- Many category buttons shown together
- Restaurant cards contain too much text

- Buttons say “Click Here”
- Many colours used without consistency

Why this is bad:

- Hard to understand which information is important
- Screen looks busy and confusing
- Too many colours reduce visual clarity
- Text is not well organized
- Buttons are unclear about action

➤ GOOD UI DESIGN (FOOD DELIVERY WEBSITE)

What the design looks like:

- Simple top navigation (Home, Offers, Cart, Login)
- Large hero banner with poster image
- Clean search bar with short text
- Limited category chips (Pizza, Biryani, Burger, etc.)

- Clean restaurant cards with proper spacing
- Buttons clearly say “Order Now”

Why this is good:

- Easy to understand and scan
- Clean and professional look
- Consistent colours and fonts
- Important details stand out clearly
- User knows exactly where to click
